I just changed the CERCLIS lat/long to correctly reflect a sampling point that is associated with the site. It is a better location for the HRS package.

Sincerely,

Sabrina Forrest

Please note that the site lat/long in CERCLIS will be changed to reflect the sample location noted by UASW006 in the HRS package.

Sincerely,

Sabrina Forrest

Subject: Cement Creek Center Points

Please find attached a quick and dirty map of Cement Creek showing the two center points.

The upper point is UASW006 just below Gladstone and is the one in the HRS document. Sample location UASW004 is downstream and also has elevated concentrations.

The lower point is the site center in CERCLA and is located between Cascade Gulch and Minnesota Gulch.

Let me know if you need more information.
